THESE instruments, after the most flattering I testimonials from the first Planists in the country, who, at our solicitation, have tested them in the severest manner possible, have been pronounced THE FINEST SQUAKE PIANU-FORTE MADE IN THE WORLD.

It has always been our policy, during the thirty-fir years that we have manufactured Planos, testie thousand of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these instruments are remarkable for their peculiar Sweetness and Great Brilliancy, never losing their quality when ferced to their utmost capacity. The lower register retaining its peality eness, does not destroy the middle and appear registers by mingling with them in disagreeable confusion, the refined beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are an entirely new style of Piano, finished in the most superb manner, with four ful roused covers from and back, heavily curved legs and lyre terpentine Bisse richly moulded, and each instrument is fully warranted for five years.
